5. STANDARD COMMITTEE ITEMS

Members reviewed the LPAC Meeting Summary motions as introduced by the Local Pharmacy Advisory Committee (LPAC) Chair. The cost of Elavil was discussed and the following motions were made:

The Medical Network's recommendation for Elavil included providing a second affordable option for the treatment of neuropathy (common among clients) when Gabapentin (Neurontin) does not work. Elavil can also be prescribed for sleep disorders and depression.

Motion #3	To move Elavil (Amitriptyline) from Tier 3 to Tier 1 of the formulary		
Proposed by:	Proulx, D. Seconded by: Grant, C.		Grant, C.
Justification	Accept Medical Network recommendation		
Action:	Passed Unanimously		

The Medical Network's recommendation for Remeron included providing another indication not available in other options. Remeron (indicated for the treatment of major depressive disorder) was initially removed from the formulary due to the availability of a Patient Assistance Program (PAP).

Motion #4	To add Remeron (Mirtazapine) to Tier 1 of the formulary		
Proposed by:	Proulx, D. Seconded by: Gammell, B.		
Justification	Accept Medical Network recommendation		
Action:	Passed Unanimously		

One member clarified that Azmacort has been discontinued. The following motion was made:

Motion #5	To remove Azmacort (Trimcinolone) and add Qvar (Beclomethasone) to Tier 1 of the formulary		
Proposed by:	Proulx, D.	Seconded by:	Grant, C.
Justification	Azmacort has been discontinued and Qvar is the most cost effective replacement		
Action:	Passed Unanimously		

Members reviewed a motion from the LPAC Summary stating the following: *To defer decision regarding Gardasil and Zostavax pending a conversation with Dr. Jeffrey Beal,FC/AETC Medical Director, to hear more insight on F/C AETC recommendations* from the LPAC Meeting Summary. The LPAC chair clarified that the Committee has requested a discussion with FC/AETC Medical Director Dr. Jeffrey Beal prior to adding Gardasil and Zostavax to Tier 1 of the Formulary.

Motion #6	To add Prevnar 13 to Tier 1 of the formulary		
Proposed by:	Proulx, D. Seconded by: Gammell, B.		
Justification	CDC and F/C AETC recommendation for standard of care; Accept Medical Network		
	recommendation.		
Action:	Passed Unanimously		

Members discussed the removal of Hydrea. It is an older drug on Tier 3, which was used as an anti-diabetic drug and to treat sickle-cell anemia and cancer. Years ago it was indicated as an anti-HIV drug but is little utilized now. The Committee requested that the following motions that stated no utilization as the justification be expounded upon. Hydrea had possible contraindications in HIV+ clients and Relenza is generally not prescribed for the flu; Tamiflu is a preferred option.

Motion #7	To remove Hydrea (Hydroxyurea) from Tier 3 of the formulary		
Proposed by:	Proulx, D. Seconded by: Siclari, R.		
Justification	No utilization in FY 12-13		
Action:	Passed Unanimously		

Members requested the justification of Relenza on page 2 of the summary be included in the following motion:

Motion #8	To remove Relenza (Zanamivir) from Tier 3 of the formulary		
Proposed by:	Proulx, D. Seconded by: Gammell, B.		
Justification	No utilization in FY 12-13		
Action:	Passed Unanimously		

The LPAC Chair announced that the LPAC meetings will now coincide with Medical Quality Improvement Network meetings in order to receive more feedback and foster discussion between pharmacists and physicians.

6. MEETING ACTIVITIES / NEW BUSINESS

a. <u>Assessment of the Administrative Mechanism</u> (copy on file)

Members reviewed the administrative invoice process. The first column summarizes the processing time over the first seven months of Fiscal Year 13-14. In March, it took an average of 42 days for reimbursement; by September, processing time had been reduced to 16 days. Administrative Processing represents the amount of time it takes the Grantee to process the invoice and submit it to Accounting. It was noted that recent changes in the Accounting department has aided in reducing the processing time significantly. The invoice is first submitted to Contracts where it is reviewed for mistakes, then it is transferred to Billing where fiscal issues are noted. If the invoice is incorrect, it is sent back to the provider for correction. Providers then re-submit the invoice. Previously, the processing time began the day the invoice was initially received. In accordance with the Florida Prompt Payment Act, processing time now begins once an invoice free of errors and corrections (a "clean" invoice) is submitted. The administrative invoice process now reflects this policy. Members discussed the monthly invoice processing trends (*copy on file*); the trends represent calendar days as opposed to business days. The Part A Program remains diligent in ensuring processing time remains within appropriate time.

The Chair inquired about documentation of the time it takes for a provider to recieve notice of the incorrect invoice. Follow-up for invoice delays are documented internally. In general, provider invoices are resubmitted within 24 hours. Members discussed the accuracy and fairness of including the time between receiving the initial incorrect invoice to receiving the correct invoice into the overall processing time.

One member suggested the average number of days an incorrect invoice is corrected and resubmitted be included in the reporting. It was noted that generally providers do well with submitting correct invoices or resubmitting corrected invoices within a short amount of time. Overall, Committee members suggested the Grantee do the following: 1) tracking the amount of days in working days versus calendar; 2) tracking the average number of days that an invoice goes back and forth to a provider before it is corrected. Members felt it would be helpful to know the time period from which the invoice was initially accepted until it was corrected in order to process.

b. <u>Food Bank Allocations (copy on file)</u>

Members discussed the current allotment. It was noted that in August, the Committee approved a change to the number of allotments allowed per client. In March, there was an average of 1.2 boxes provided to clients while in August, the average increased to 1.7 boxes. Both the number of clients and number of boxes received from March to August by clients has increased. It was noted that the total Food Bank utilization in the first seven months of

the fiscal year is \$543,000. The program is working to finalize October's expenditures.

Members discussed voucher usage. The number of vouchers per consumer was 1.0 per month from March to October. The number of consumers who use vouchers has dropped as indicated by the Food Bank Service Usage charts (*copy on file*). Members discussed increasing the allotment for Food Bank services as the number of boxes has increased. One member noted that the number of vouchers may increase during the holiday months. Concern was raised regarding the large sum of bulk money that has carried over for almost two years. Bulk purchases typically should not carry over for more than a year and cannot be swept into other service categories.

One member inquired about the \$448,000 in carryover funds the program recently received. The carryover funds did not come with stipulations to allocate funds to specific categories. It was noted that actual expenditures have decreased due to no longer paying per diem. Other factors may offset initial carryover plans as determined previously in annual allocations.

In order to utilize the \$100,910 in bulk money, members discussed increasing the poverty level for eligibility for food vouchers and boxes. Members reviewed the FY12-13 Centralized Intake and Eligibility Determination (CIED) and Food Bank Scorecards to determine client utilization of Food Bank services by poverty level. There was discussion to increase the number of allotments to clients already utilizing the service. Most clients use the Food Bank twice a month and are able to pick up vouchers and boxes in the same visit. The following motions were made:

Motion #9	To increase the federal poverty level eligibility to 250% for Food Bank and allow 4			
	allotments per month which can be picked up in two visits.			
Proposed by:	Hayes, M.	Seconded by:	Siclari, R.	
Justification:	In order to more effectively manage the allocations for this service category			
Action:	Rescinded			

Motion #10	To increase the federal poverty level eligibility to 250% for food vouchers and allow the maximum number of voucher allotments to 6 per year.					
Proposed by:	Wynn, J. Seconded by: Hayes, M.					
Justification:	In order to more effectively manage the allocations for this service category					
Action:	Rescinded					

Members discussed current voucher allotments. A maximum of 3 allotments may be vouchers. Current restrictions on the types of foods purchased with a voucher were discussed. Items must come from the basic food groups. Members were reminded that there is an administration and dispensing fee (total \$8.50) along with the dispersing of vouchers. Members agreed to look at restrictions of what may be purchased with Ryan White food vouchers. The following motions were made:

Motion #11	Effective December 1, 2013: Increase the federal poverty level eligibility to 250% for Food Bank and allow a maximum of 48 boxes (up to 4 a month, only 2 can be dispensed per visit) plus a maximum of 6 vouchers (up to 2 per month, only 1 voucher can be dispensed per visit) equaling 54 units per year.					
Proposed by:	Wynn, J. Seconded by: DeSantis, M.					
Justification:	In order to more effectively manage the allocations for this service category					
Action:	Passed with 1 abstention					

Motion #12	To revoke Motions 9 and 10

Motion #13	To temporary suspend the Food Bank emergency provisions-						
Proposed by:	Wynn, J. Seconded by: Katz, H.B.						
Action:	Withdrawn	Withdrawn					

In accordance with the changes to eligibility for Food Bank services and food vouchers, member made the following motion:

Motion #14	To modify the federal poverty level for emergency provisions to 251-300%.						
Proposed by:	Wynn, J. Seconded by: Proulx, D.						
Justification:	In order to more effectively manage the allocations for this service category in						
	accordance with modifications to Food Bank boxes and food voucher eligibility.						
Action:	Passed with 1 abstention						

Additionally, the following changes were made to the FY 2013-2014 Ryan White Part A Services Criteria: Clients must be less than or equal to 250% Federal Poverty Level (FPL); 48 Food Bank boxes may be received per year (up to 4 a month, only 2 can be dispensed per visit); a maximum of 6 vouchers may be received per year (up to 2 per month, with only 1 voucher dispensed per visit); a single voucher can be provided simultaneously with a box or boxes.

Members requested that the Grantee conduct monetary projections based on the Food Bank service category in preparation for the sweeps process in January 2014.

- c. <u>MAI Case Management Analysis</u> The Committee agreed to defer this item to the December 18th meeting.
- d. Review ACA Impact on Allocations

The SFAN Chair reported that discussions have been held on Marketplace plans and provider agreements; however, some providers are still negotiating contracts. Discussions have also been held regarding changes to AIDS Drug Assistance Program (ADAP) policies; however, nothing has been put in writing from the state as of yet. The Committee agreed to defer further discussion on this item to the December 18th meeting. The following motion was made:

Motion #15	To defer MAI Case Management Analysis and ACA Impact on Allocations to the December meeting.					
Proposed by:	DeSantis, M. Seconded by: Schickowski, K.					
Action:	Passed Unanimously					

7. Grantee Reports:

a) Part A

The Grantee announced the World AIDS Day event at Hagen Park (located in Wilton Manors) from 4-7 p.m. Additionally, the Grantee will be hosting community engagement forums to gather community input on Ryan White CARE Act Reauthorization, December 18th from 6-8 p.m. at the Family Success Center in Carver Ranches and December19th 6-8 p.m. at Hagen Park in Wilton Manors.

b) <u>Part B</u>

The Grantee recommended a sweep of \$16,641 from Medical Transportation to Non-Medical Case Management. It was noted that additional staff has been hired to assist with eligibility and the recommended sweep would prevent an overutilization of funds in the Non-Medical Case Management service category. Members made the following motion:

CHALLENGES

- Most challenging clients to retain into care
- Only one contracted provider currently billing for services
- Strictly a peer-driven model
- Based on ARTAS Model (Intensive Short-term 90 day program)

RECOMMENDATIONS

- Revise the Model to include other service personnel
- Revise the Model to include a component for clients who need long – term, strengths-based interventions
- Service Category should be restricted to Ryan White Part A Outpatient/Ambulatory Medical Care providers
