

2022 Broward County Health Profile

BRHPC

Broward Regional Health Planning Council, Inc.
is committed to developing and providing health and human service innovations at the national, state, and local level through planning, direct services, evaluation, and capacity building.

About the Broward County Profile

Broward Regional Health Planning Council's Broward County Health Profile provides a synopsis of Broward County health indicators. It is a compilation of statistics at the county and state levels; including population demographics, socioeconomic factors, leading causes of death, infectious diseases, maternal and child health, healthcare utilization, healthcare access and prevention quality indicators.

Demographic Profile

Total Population: 1,947,026

Hispanics/Latinx represent 32.0% of all races

0-19
22.9%

35.6% of Broward Residents are Foreign Born

20 - 44
32.0%

West Indians represent 14.0% of Broward Ancestry

Some of the largest ethnic groups in Broward are:

45 - 64
27.6%

Cuban

Puerto Rico

Haitian

Jamaican

65+
17.5%

28.4%

Households with one or more people under 18 years

32.9%

Households with one or more people 65 years and over

Economic Profile

Income

\$64,522

Median household income

Slightly higher than the amount in Florida: \$61,777

\$36,451

Per Capita income

Slightly higher than the amount in Florida: \$35,216

12.8%

Persons in poverty

Slightly lower than the amount in Florida: 13.2%

Housing

Median List Price

Median Value of Owner-Occupied Housing

Broward

\$414,387
+8.8% from previous year

\$299,700

Florida

\$385,157
+5.4% from previous year

\$248,700

Broward County has one of the worst housing markets in the state because of high costs. In addition to high rental raises, the difference between median house value and median list price shows the financial burden of potential homebuyers.

\$2,503
